## Part 3: Reading and Writing Data

[Bookmark this page](#)

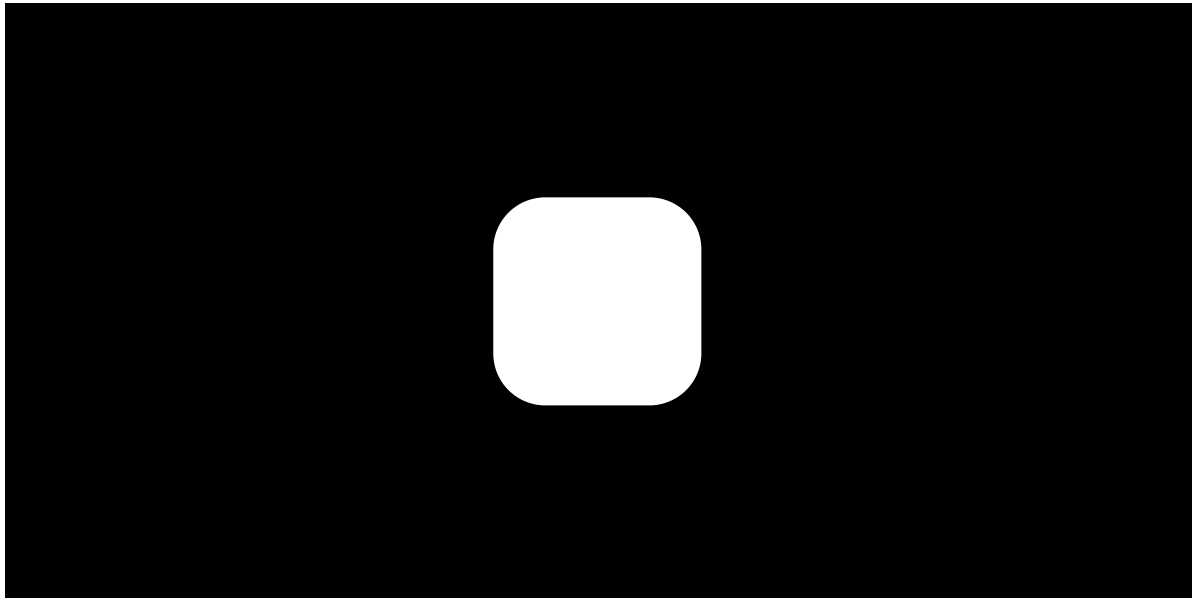

### Relational Databases

### Part 3: Reading and Writing Data

Now we have looked at the model, let's look at how we create, read, and delete data from the database.

### Populate Database

[Start of transcript. Skip to the end.](#)

[MUSIC PLAYING]

In the previous two videos, we learned how to define our model classes and we learned how to wire our Python program up to Pee Wee so that the database piece will work. In this video, we're going to start tackling, dealing with a database in terms of adding records and removing records
