💬 **Anyone else having issues with code coverage?**
I am without any doubt hitting every single line of code in my main.py with my unit tests. Code coverage shows the lines with the function defi... — **2**

? **Code for Calculator program and testing**
Is there a way to get a copy of the code and tests for the calculator program from the video? I'm having trouble following the flow of functions... — **2**

? **mocking with exception**
Hi, I'm working on Assignment 1, trying to test function 'load_users' in main.py. For simplicity, I modified 'load_users' to be the following: main... — **4**

💬 **UTF8 Encoding for pylint**
I ran into an error with getting pylint to run after making the ".pylintrc" file. First, I followed the video to make this file. However, I couldn't get ... — **2**

💬 **Confusion with mock**
Hello all, I'm starting assignment 1 and am trying to use mock but am a bit stuck on the logic. It seems trivial to set users.UserCollection.add_u... — **2**

? **Coverage html for Mac**
Hi there, I noticed that the video on Coverage shows how to create an html on Windows, is there a way to do this for Mac? — **2**

? **mocking a function and reset the function state**
I'm running into an issue where assigning/overriding a function to a Mock object would persist for all subsequent unit tests. Is there a way to r... — **4**

💬 **Recommended Support Resources for Mocking**
Hey all - I am having some trouble getting @patch to work as intended in the homework, and I suspect I am not understanding something in t... — **3**

? **Pytest v unittest**
When do you use pytest v unittest? Is pytest used more in practice because it has more functionality, and unittest is just a built-in lib? — **1**

💬 **Assignment 1 main.py question**
Hello instructors, I am confused about why many functions such as load_users() should return False when there's an error, instead of raising a... — **1**

? **using pytest for testing**
In the previous course (Python210), we were constructing our tests using pytest. It looks like for this course we are being introduced to unittes... — **3**
